PALAK GARG

Full-Stack Development | Data & Business Analysis | Program Execution

Patiala, Punjab, India | +91 70096-23033 | pgarg_be23@thapar.edu | github.com/palakkkx | linkedin.com/in/palakgargg

PROFILE

Electronics & Instrumentation undergraduate with hands-on software development experience (4 deployed full-stack and ML-integrated applications, 200+ DSA problems solved) and growing business analysis capability, including a Power BI sales dashboard. Proven research and stakeholder engagement through Model United Nations delegations, and relationship-building and presentation delivery as a university society leader. Strong ownership, analytical thinking, and communication skills.

CORE SKILLS

Programming & Web Development: JavaScript, Python, React.js, Node.js, Express.js, Flask, REST API Design, JWT Authentication

Data, Analytics & BI: Power BI (dashboard creation), SQL, Scikit-learn, Predictive Modeling, MS Excel (formulas, data organization)

Business Tools: MS Excel (basic), MS PowerPoint (basic), Power BI

Business & Analytical Skills: Business Analysis, Root Cause Analysis, Primary & Secondary Research, Stakeholder Management, Process Improvement

Deployment & Version Control: Git, GitHub, Vercel, Render, CI/CD

Core CS: Data Structures & Algorithms, OOP, DBMS, Operating Systems

LEADERSHIP EXPERIENCE

- Delegate, Thapar Model United Nations (MUN) — conducted primary and secondary research on assigned committee topics, synthesizing findings into structured position papers and verbal arguments during committee discussions and negotiations.
- Creativity Head, Virsa Society, Thapar Institute of Engineering & Technology (2+ years) — led creative planning and execution of cultural events, building relationships across team members and developing event proposals and presentations (PowerPoint) for stakeholders.
- Coordinated logistics and cross-team priorities for large-scale events, including representing the society at the Virsa Walk cultural celebration promoting Punjabi culture.

PROJECTS

Sales Performance Dashboard | *Power BI, MS Excel, Data Analysis*

- Built an interactive Power BI dashboard analyzing 5,100+ sales orders across 35 states and 13 product categories, visualizing sales, cost, and order-status trends.
- Identified top-performing product categories by revenue (e.g., monitors, CPUs, graphics cards) from ~₹9.9 crore in total transactional sales data, translating raw data into actionable business insights.
- Used MS Excel for data organization and cleaning prior to dashboard integration.

Expense Tracker | *MERN Stack (React.js, Node.js, Express.js, MongoDB), JWT, REST API* | github.com/palakkkx/expense-tracker-mern | Live Demo

- Built and deployed a full-stack MERN expense management application with JWT authentication and full CRUD functionality across 4 modules (Dashboard, Transactions, Analytics, Profile).
- Automated production deployments using GitHub-based CI/CD, delivering the project end-to-end from requirements through production release.

Smart Queue Management System | *Flask, Python, SQLite, Scikit-learn* | github.com/palakkkx/smart-queue | Live Demo

- Identified an operational bottleneck (unpredictable customer wait times) and built a Scikit-learn predictive model to forecast wait times from queue and service data.
- Designed an admin dashboard to simplify queue progression and support operational decision-making.

Early Wake-Up & Health Analytics Dashboard | *Python, Pandas, NumPy, Plotly, Streamlit* | github.com/palakkkx/early-wakeup-health-analytics | Live Demo

- Analyzed 10,000 health and lifestyle records across 64 features covering sleep, exercise, nutrition, and wellness indicators.
- Performed data cleaning, missing-value analysis, and exploratory data analysis using Pandas and NumPy.
- Built and deployed an interactive Streamlit dashboard with filters, KPI metrics, Plotly visualizations, and downloadable filtered data.

CERTIFICATIONS

Certified Front-End Developer — Excellence Technology (Jun 2025) | View Credential

C/C++ — LogicLab Coding Academy (Dec 2024) | View Credential

Python — LogicLab Coding Academy (Jun 2026) | View Credential

Model United Nations — Thapar Institute of Engineering & Technology (Apr 2025) | View Credential

EDUCATION

Bachelor of Technology — Electronics, Instrumentation & Control

Thapar Institute of Engineering & Technology, Patiala | 2023–2027 | CGPA: 7.35/10
